SailPoint

La sécurité des identités au cœur de l'entreprise

NHI Governance

Why should agent builders care?

You can define your agent's behaviour by its access.

Who/What are we focused on?

Human

- Employee
  - Role Based Access
  - Privilege Access
  - Time Based Access
  - Policy Based Access
- Non-Employee
  - Role Based Access
  - Time Based Access
  - Policy Based Access

AI / NHI

- CSP Agents
  - 3rd Party Agents
  - 1st Party Agents
  - Hybrid Agents
  - Ephemeral Agents
  - Autonomous Agents
- Client Agents
  - Device Specific
  - OpenClaw
  - Gemini Client
  - Atlas Desktop
- Credentials
  - X.509 Certificates
  - JWT Tokens
  - SPIFFE SVIDs

Non-AI Machines

- Services
  - Service accounts
  - Service Principles
  - Cloud CSP
  - Hybrid

3 pillars of The SailPoint Agentic Fabric

The SailPoint Agentic Fabric

End-to-end identity security for the age of AI

1

Discovery & Unified Registry

2

Real-time Governance & Audit

3

Authorize, Protect & Respond

© 2026 SailPoint Technologies, Inc. All rights reserved.

GA

SailPoint Agentic Fabric

DISCOVER	GOVERN	PROTECT
Single unified registry (agents, all NHI)	Lifecycle Management	Agent Authorization (MCP, JIT, Continuous AuthZ)
Discovery (connectors, browser, end-point)	Ownership & Succession	Prompt & Response Security
Visibility (access graph, lineage map)	Agent Access Requests & Certifications	CLI Threat Detection & Remediation
Posture (basic risk score)	Agent Audit & Compliance	NHIDR (behavioral monitoring, real-time threat detection & policy-based response)
		SOC Experience (Response & Remediation for agents)
		Advanced Risk Score with Dynamic Signals

30-Day Free Discovery Tool: SaaS Apps & Agent Platforms only

Test Drive: Read-only sandbox with packaged demo data

4 Week Proof of Concept: Customer Data & Live Environment, 5 integrations, 40 Use Cases
Option: include a Business Value Assessment for a true Proof of Value for 3 Business Outcomes

Adopt SailPoint Agentic Fabric: Weeks to Months

SailPoint Agentic Security Cloud

We unify, secure and govern ALL Identities.

Not Exhaustive

AI Apps & Agent Discovery Mechanisms

Known Platforms & Known Agent Frameworks

aws

Microsoft

GCP Vertex AI

salesforce
Agentforce Agents

Claude Console
Managed Agents

Web Services
Connect to any endpoint
